Chandragupt Institute of Management Patna (CIMP) Hosts Thought-Provoking Interaction on "Infrastructure of Thinking"

19.07.2023, Patna - Chandragupt Institute of Management Patna (CIMP), a premier management institute, organized an insightful interaction on the theme "Infrastructure of Thinking" with Shri Ajay Krishna, General Manager of the IT Department at SBI Corporate Centre, Mumbai. The event took place on 19.07.2023 and witnessed the active participation of esteemed faculty members, students, staff, and other distinguished dignitaries.

The event commenced with a warm welcome speech by Prof. Vibhash Kumar, Professor of Practice at CIMP. Prof. Vibhash extended his heartfelt greetings to the distinguished guest, Shri Ajay Krishna, and all the attendees. He emphasized the significance of the IT department in providing security and enabling safe transactions, while also highlighting the wisdom and vision inherent in the role of a banker.

Shri Ajay Krishna, an esteemed guest and an expert in the IT domain, delivered an engaging address centered on the topic "Infrastructure of Thinking." He captivated the audience with his insightful perspective on how seemingly small ideas and concerns can connect to form a comprehensive and impactful main idea. He stressed the importance of logic in society and the environment, drawing a clear distinction between sophistry and logic, highlighting the latter's significance in creating realistic and valuable outcomes.

During his address, Shri Ajay Krishna emphasized the role of poetry and literature in generating vibrations in ideas. He emphasized that ideas gaining acceptance among thinkers hold greater value and contribute to positive waves in society. He encouraged the youth to explore and embrace both the logical and creative aspects of their thinking patterns, acknowledging the transformative power of poetic expressions with logical depth.

Shri Ajay Krishna further underscored the vital role of science and technology in upgrading infrastructure. Simultaneously, he acknowledged the challenges faced by poets in weaving logic into their verses to induce waves of compassion and sympathy among readers. He emphasized that the process of developing and executing logical ideas is of utmost importance in determining their feasibility and success.

Throughout the interaction, it became evident that the "Infrastructure of Thinking" connects small ideas, concerns, and debates, leading to the emergence of major solutions to complex problems. Shri Ajay Krishna stressed that intellectual capacity is not limited to one's

profession or educational background, but rather, it encompasses a broader vision that allows individuals to connect various ideas to fulfill a common goal.

The session concluded with a heartfelt Vote of Thanks delivered by Mr. Vivek Kashyap, Senior Administrative Officer, CIMP. He expressed his gratitude to Shri Ajay Krishna for his enlightening and thought-provoking address. Mr. Kashyap also extended his appreciation to all the participants, faculty members, students, and staff, whose presence made the event a resounding success.

The interaction on the "Infrastructure of Thinking" provided an enriching platform for knowledge exchange, inspiring the audience to explore new dimensions of logic, creativity, and visionary thinking. CIMP remains committed to organizing such stimulating events to foster intellectual growth and contribute to societal progress.
